

PECB Certified ISO 21502 Lead Project Manager

Obtain the necessary competence to lead project teams and deliver projects successfully in accordance with the guidance provided in ISO 21502 and other good practices of project management

Why should you attend?

The PECB ISO 21502 Lead Project Manager training course helps you develop the necessary competencies for initiating, planning, monitoring, directing, controlling, and closing a project based on the guidelines of ISO 21502.

In addition to providing the theoretical background on project management, the training course offers practical examples and quizzes that will help you apply the knowledge gained in real-life scenarios.

After completing the training course, you will be able to apply for the exam. If you successfully pass the exam, you can apply for the “PECB Certified ISO 21502 Lead Project Manager” credential. An internationally recognized “PECB ISO 21502 Lead Project Manager” certificate validates your professional capabilities and demonstrates that you possess the necessary knowledge and skills to manage a project based on the guidelines of ISO 21502.

Who should attend?

The ISO 21502 Lead Project Manager training course is intended for:

- Project managers
- Project sponsors
- Expert advisers
- Project team members
- Executives, managers, and directors involved in governance, direction, and audits of projects
- Individuals seeking to thoroughly understand project management
- Individuals aiming to start or advance their careers in project management
